CURRICULUM VITAE

PERSONAL

Name	Alice Khachian (Professor of Nursing)
Gender	Female
Date of birth (optional)	
Place of birth (optional)	
Family status (optional)	
Address, work	School of Nursing & Midwifery Rashid Yasemi St. Valiasr St.Tehran- Iran
Phone, work	88882886
Phone, home	
E-mail address, official	Khachian.a@iums.ac.ir
E-mail address, personal	alicekhachian@hotmail.com

EDUCATION AND QUALIFICATIONS

University and/ or further education

-Bachelor of Science in Nursing Isfahan University of Medical Sciences, 1991
- Master of Science in Nursing Education (Medical-Surgical), Isfahan University of Medical Sciences 1995
-PhD of nursing , Shahid Beheshti University of Medical Sciences, 2013
-Master of Science in Medical Education, Shahid Beheshti University of Medical Sciences, 2023

Job Title

- Nurse Instructor/Researcher

Starting from 1997 until now in Iran University of Medical Sciences- Nursing and Midwifery School- Medical Surgical Department

Language qualifications

Armenian
Persian
English

PROFESSIONAL INTERESTS

- Clinical education
- Orthopedic nursing
- Nursing education
- Management
- Quality of life
- Qualitative and quantitative research methods
- Pain
- Educational Management

PROFESSIONAL MEMBERSHIPS

- Member of academic consultant committee

- Member of Nursing Organization of Iran as scientific consultant
- Cooperate with students research committee as consultant and lecturer
- Chief Editor of "AVEDIS" public health education magazine (in Armenian language)
- Member of Iranian Cardiac Nurse Society
- Documentation of faculty in applying Baldrige model
- Member of Avedisian clinic management board since 2002
- Member of Armenian schools educational consultant board since 2006

- Reviewer of Journal of Organizational Change Management since 2012
- Head of department of Medical Surgical Nursing 2013-2015 and 2017-2023
- Member of Research committee of faculty since 2013
- Member of Research committee of Medical Surgical Department since 2013
- Head of Nursing continuing education office 2013-2017
-Member of faculty internationalization committee since 2016
- Member of Faculty accreditation committee since 2015

ACADEMIC APPOINTMENTS

Teaching different courses (Theory/practice) for BSc nursing students including Medical- surgical nursing, Fundamentals of nursing, Obstetrics& gynecology, Physical assessment, Operating room,
Teaching methods and Nursing management to MS students
Medical Surgical courses to MS students
Management and Nursing theories to PhD

Other pedagogical merits

RESEARCH EXPERIENCE

Dissertation/thesis

My Thesis
-The prevalence of signs and symptoms of acute blood transfusion complications(Ms Dissertation) 1995

-Designing a model of change management for Nursing

and Midwifery faculties (PhD dissertation) 2013
- Effect of de bono six thinking hats method on learning in nursing students 2023

Supervised theses:

2008

-Assessing the dietary habits that related to renal stone formation in Hasheminejad Hospital, Tehran.(co supervisor)

-Effects of strategies used by people to promote health education on self care self efficacy in patient with bone marrow transplantation (co supervisor)

2015

-Survey challenges of change in physical education faculties(co supervisor)

- The effect of foot reflexology on the intensity and frequency of pain in patients with tension headache (supervisor)

2016

-Relationship between nurses professional behavior and organizational culture and commitment in hospitals affiliated to Iran University of Medical Sciences(supervisor)
-The effect of acupressure on severity of headache due to spinal anesthesia in cesarean section(supervisor)
- The Effect of Liason nurse on Anxiety due to patients transferring from ICU to general wards.(co supervisor)
-Comparing the effect of family centered and patient centered educatio on chronic heart failure patients and self care behaviors(supervisor)

2017

- Assessment of Nurses' Readiness to applying nursing process kardex Based on ADKAR model(supervisor)
- The effect of self care education program on wound healing and pain women undergoing cesarean section(co supervisor)
- Relationship of Musculoskeletal problems with Quality of working life among critical care nurses(co supervisor)
-Effectiveness of an educational program with family planning education on self-management behaviors of people with Epilepsy(supervisor)
- Investigating the relationship between religious beliefs and self-management behaviors of clients with kidney transplantation(co supervisor)

2018

	- Assessing the effect of education through jigsaw method on knowledge and performance of nursing students on oxygen therapy(supervisor) - Comparison of the effect of acupressure points of Li4 and GB34 on the severity of pain in patients undergoing orthopedic surgery of the leg(supervisor) - Comparing the effect of inhalation Aromatherapy and local Aromatherapy on Radiotherapy- Induced Fatigue in patients with cancer(supervisor) <u>2019</u> - Development and validation of Shared Governance feasibility instrument in Nursing and Midwifery Schools Affiliated to Type one Medical Universities of Tehran: A Sequential Exploratory Mixed Method Study(co supervisor) - The Effect of Smartphone-Based Nutrition Education on Biochemistry and Anthropometric Indicators of ileostomy subjects(supervisor) - The effect of simulation-based education on the knowledge and performance of nursing students in the field of Medication(supervisor) - The effect of Pender's Health Promotion Model on Life style and self efficacy of clients with Diabetetic foot(supervisor) - Investigating operating room Ethical Climate from viewpoint of the surgical team and it's relationship with organizational culture and commitment in hospitals affiliated to Iran University of Medical Sciences(co supervisor) - Investigating frequency and causes of medical errors and its reporting barriers in operating room technologists in hospital affiliated to Iran University of Medical Sciences(co supervisor) - The relationship between nurse cultural competence with their care behaviors in centers of educational and therapeutic Iran university of medical sciences (supervisor) <u>2020</u> - Assessing Nurses perceptions regarding disclosure of patient safety incidents in selected educational and medical centers of Iran University of Medical Sciences 2020(supervisor) - Home care system programming for cancer patients 2020(co supervisor) - The effect of teach- back method of self care education on the severity of pain and quality of sleep in rheumatoid arthritis patients(co supervisor) <u>2021</u> - The effectiveness of self- Management Education based on the mobile application on the quality of life of people with Parkinson's disease in patients referring to Neurology Clinics of Selected medical education Centers of Iran University of Medical sciences in 2021(supervisor)	

- The effect of expressive writing on anxiety sensitivity and severity of symptoms in p0atients with irritable bowel syndrome 2021(supervisor)
- The relationship between quality of nursing services and work family conflict and organizational support's role of mediation i8n nurses of educational centers of Iran Universi8ty of Medicfal Sciences(supervisor)
- Evaluation of the effect of self management training by lay-led people on pain self-efficacy in patients with lumbar intervertebral disc herniation(supervisor)

2022

- Investigating the relationship between mindfulness and treatment regimen adherence with quality of life in people with Diabetes: A predictive study(supervisor)
- Development and psychometrics of perceived clinical nurses' professional dignity scale (PCNPDS)(supervisor)

2023

- Investigating the relationship between entrepreneurial leadership style and internal marketing of head nurses from the perspective of nurses of educational centers of Iran University of Medical Sciences in 2021(supervisor)
- Assessing of outcome and anxiety of daily living in patients with knee osteoarthritis in Al-Hilla teaching hospitals in 2023 (supervisor)
-Investigation of medication adherence and quality of life in out-patients with diabetes mellitus type 2 in Al- Hilla diabetes centers 2023(supervisor)
- Resilience and Self-care of Patients with Heart Failure in Critical Care Units at Thi Qar Hospitals in 2023(supervisor)

Approved projects & Proposals

-Effects of teaching on self-care ability of patients with ileostomy and colostomy2004
-Urinary tract Infection rate in Dormitory's female student and the relation of it with predisposing factors 2012
- Using educational technology generally in Nursing and Midwifery faculty of Iran University of Medical Sciences2009
- Using educational technology by faculty members in Nursing and Midwifery faculty of Iran University of Medical Sciences2007-2008
-Designing a model of change management for Nursing and Midwifery faculties 2013
-The rate and influencing factors on suicid attempts in Sahneh in 1393
- An applicable model for virtual workshops in Iran University of Medical Sciences
- Incidence of pressure ulcer and its related factors in pateints with total hip Replacement in selected hospitals in Tehran in 2019.
- The effect of the transitinal care program from hospital to own home using the digital messaging application on self- efficacy, quality of life,

	cardiac symptoms, and medication adherance among patients undergoi coronary artery bypass graft surgery and caregiving burden in their fam caregivers - Assessment of knowledge of body language of nurses in communicati with patients in educational centers affiliated to Iran University of Medical sciences in 2018 - Nursing students' clinical education problems and the promoting strategies: An action research - Development and Validating of The ADAMandrogen deficiency in ageing men scale in Iran - A decision support system for nurse rostering based on a column generation algorithm . Case study of the male ward of Shafa Yahyaian Hospital
